# Flex Powder w/ Citrus Solv

Heavy Duty Carpet Prespray

## Flex Powder w/ Citrus Solv

Flex Powder with Citrus Solv is a heavy duty carpet prespray designed for use in the Hydro-Force injection sprayer and other types of pump or electric sprayers. Best results are obtained when mixed with hot water.

- A HOT, ultra concentrated, Citrus Solv enhanced, high alkaline prespray for carpets needing a restoration cleaning.
- Starts to work on contact and dissolves grease and oils in minutes and is the ideal choice for any restorative cleaning job.
- Economical by costing only pennies per diluted gallon and making over 50 gallons of ready to use prespray.
- Dissolves faster than any other powder you have ever used. It is suitable for use in the Hydro-Force sprayer and easier to dissolve at that strength.
- Uses the cleaning strength of Citrus Solv and leaves the fresh natural orange scent behind.
- Less foamy than typical high pH presprays.
- Use as a booster to create an aggressive prespray out of any typical cleaner.

Part Number: CC21A

12.5 - 13.0 RTU pH

Dilution Ratio: Portable: 1-2 oz. / gal.

Contents: 6.5 Pound Jar (2.95 Kilograms)

Available in 6.5 lb Jars and 4 x 1 jar cases,  
5 gallon pails, 55 gallon drums

### DIRECTIONS

**Pump or Electric Sprayers** - Dilute 1 scoop (2 ounces) of Flex Powder with Citrus Solv per gallon of hot water for most heavy soils. Use up to 2 scoops (4 ounces) of Flex Powder with Citrus Solv per gallon of hot water for extra heavy soiling conditions.

**Hydro-Force Injection Sprayer** - Dilute 8 scoops (16 ounces) of Flex Powder with Citrus Solv per Hydro-Force container of warm water. Dilute at 1 to 8 setting.

**Application** - Spray on traffic areas of carpet until evenly damp. Allow to dwell for 5-15 minutes. Do not allow to dry before extraction. Extract with normal cleaning process.

**Booster** - Add 1 scoop (2 ounces) to ready-to-use gallon to create General Purpose Degreaser out of any typical cleaner.
