

WOOL PRO

BRIDGEPOINT

SYSTEMS

Spot & Stain
Remover

Avenge Spotter has long been the standard for professionals to safely and effectively remove all types of spots, spills, and stains. Wool Pro™ moves to the next level with its unique synergistic action along with its safety and effectiveness on wool as indicated by the Wool Balance™ manufacturer's designation. Wool Pro™ will work on a wide variety of difficult spots, including protein stains like egg, blood, grass stains, and tougher stains like ink, permanent marker, lipstick, shoe polish, grease, oil, tar and more. For especially difficult stains like paint, fingernail polish, or other resins, use along with Bridgepoint's All Solv Extreme™ gelled solvent stain remover.

- Synergistic balanced blend of builders, surfactancy & solvency.
- Special blend allows product to work on a multitude of spots and stains. One product, for 95% of the spots and stains. Works on all color-fast fibers.
- Movement of spot or stain into foam rather than adjacent fibers.
- Compatible with All Solv Extreme™ and most other solvents that may be used on the spot or stain.
- Greatly aids the free rinsing of stains from fibers.

DIRECTIONS

1. Test in an inconspicuous area for safe use on fiber and dyes.
2. Remove excess contaminant before applying Wool Pro™.
3. Apply spotter directly to the contaminated area. Gently agitate with a spotting spatula (bone scraper or Gum Getter™), working into a foam. Remove foam along with suspended contaminant into an absorbent towel.
4. Rinse with water and extract (preferred) or blot with a clean absorbent towel. Continue steps 3 and 4 as long as it produces results.
5. If any stain remains apply Bridgepoint All Solv Extreme, agitate, apply Wool Pro.
6. For upholstery or delicate fibers, apply Wool Pro™ to a towel and blot the stain. Repeat if necessary and thoroughly rinse.

Available in Pints and 12 x 1 pint cases

Part # CW20PT
