

**Section 1 - Identification of Chemical Product and Company****SAN-AIR Australia Pty Ltd**

Unit 2/10 Stockyard Place, West Gosford NSW 2250

**Phone:** 1300 556 739

<b>Trade Name:</b>	<b>ADVANCED Reactive Gel</b>
<b>Pack Sizes :</b>	75g, 750g & Custom Sizes
<b>Substance:</b>	Blend of substances in a water carrier.
<b>Other Names:</b>	ADVANCED Air Handler Gel
<b>Product Use:</b>	Room air treatment and freshener. Controls airborne germs and mould.
<b>Creation Date:</b>	September 2023
<b>LAST Revision Date:</b>	<b>N/A</b>
<b>NEXT Revision Date:</b>	<b>June 2027</b>

**Section 2 - Hazards Identification**

<b>Statement of Hazardous Nature</b>	This product is classified as: Not Hazardous according to the criteria of ASCC. Not a Dangerous Good according to the Australian Dangerous Goods (ADG) Code. Not IATA restricted Not HAZMAT Restricted
<b>Risk Phrases:</b>	Not Hazardous - No criteria found.
<b>Safety Phrases:</b>	S25. Avoid contact with eyes.
<b>SUSDP Classification:</b>	None allocated.
<b>ADG Classification:</b>	None allocated. Not a Dangerous Good under the ADG Code.
<b>UN Number:</b>	None allocated.

**Emergency Overview**

<b>Physical Description &amp; Colour:</b>	Milky coloured gel.
<b>Odour:</b>	Faintly fragrant.
<b>Major Health Hazards:</b>	No significant risk factors have been found for this product.

**Potential Health Effects****Inhalation:**

<b>Short Term Exposure:</b>	Available data indicates that this product is not harmful. In addition product is unlikely to cause any discomfort or irritation.
<b>Long Term Exposure:</b>	No data for health effects associated with long term inhalation.

**Skin Contact:**

<b>Short Term Exposure:</b>	Available data indicates that this product is not harmful. It should present no hazards in normal use. In addition product is unlikely to cause any discomfort in normal use.
<b>Long Term Exposure:</b>	No data for health effects associated with long term skin exposure.

**Eye Contact:**

<b>Short Term Exposure:</b>	This product may be mildly irritating to eyes, but is unlikely to cause anything more than mild discomfort which should disappear once product is removed.
<b>Long Term Exposure:</b>	No data for health effects associated with long term eye exposure.

**Ingestion:**

<b>Short Term Exposure:</b>	Significant oral exposure is considered to be unlikely. However, this product may be mildly irritating to mucous membranes but is unlikely to cause anything more than mild transient discomfort.
<b>Long Term Exposure:</b>	No data for health effects associated with long term ingestion.

**Carcinogen Status:**

<b>ASCC:</b>	No significant ingredient is classified as carcinogenic by ASCC.
<b>NTP:</b>	No significant ingredient is classified as carcinogenic by NTP.
<b>IARC:</b>	No significant ingredient is classified as carcinogenic by IARC.

**Section 3 - Composition Information on Ingredients IN BULK SOLID**

Ingredients	CAS No	Conc, %	TWA (mg/m <sup>3</sup> )	STEL (mg/m <sup>3</sup> )
Lavender oil	8000-28-0	<3%	not set	not set
Non hazardous ingredients	various	<32%	not set	not set
WATER		to 100%	not set	not set

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

**Section 3 - Composition Information on Ingredients During Use**

Ingredients	CAS No	Conc, %	TWA (mg/m <sup>3</sup> )	STEL (mg/m <sup>3</sup> )
Lavender oil	8000-28-0	<0.003%	not set	not set
Non hazardous ingredients	various	<0.032%	not set	not set
WATER		to 100%	not set	not set

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

The ASCC TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

**Section 4 - First Aid Measures**

<b>General Information:</b>	You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.
<b>Inhalation:</b>	First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.
<b>Skin Contact:</b>	Gently brush away excess solids. Irritation is unlikely. However, if irritation does occur, rinse with lukewarm, gently flowing water for 5 minutes or until chemical is removed.
<b>Eye Contact:</b>	Quickly and gently brush particles from eyes. No effects expected. If irritation does occur, flush contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the product is removed. Obtain medical advice if irritation becomes painful or lasts more than a few minutes. Take special care if exposed person is wearing contact lenses.
<b>Ingestion:</b>	If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre, doctor or hospital emergency.

**Section 5 - Fire Fighting Measures**

<b>NFPA rating:</b>	Health 1, flammability 0, reactivity 0 (The NFPA hazard rating system is intended to provide basic information to fire fighting, emergency, and other personnel, enabling them to easily decide whether to evacuate the area or to commence emergency control procedures. It is not applicable to transportation or use by the general public and is not intended to address occupational exposures.)
<b>Suitable extinguishing media:</b>	Use extinguishing media suitable for surrounding materials.
<b>Specific Hazards:</b>	No special exposure hazards are known.
<b>Special protective equipment for Use:</b>	Standard fire-fighting protective equipment.

**Section 6 - Accidental Release Measures**

<b>Accidental release:</b>	Accidental release from one of these is not usually a cause for concern. For minor spills, clean up, rinsing to sewer and put empty container in garbage. Although no special protective clothing is normally necessary because of occasional minor contact with this product, it is good practice to wear impermeable gloves when handling chemical products. In the event of a major spill, prevent spillage from entering drains or water courses and call emergency services.
----------------------------	---

## Section 7 - Handling and Storage

<b>Handling:</b>	Exposure to this product is relatively safe. Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.
<b>Storage:</b>	Store packages of this product in a cool place (ideally under 30°C). Make sure that containers of this product are kept tightly closed. Keep containers dry and away from water. Make sure that the product does not come into contact with substances listed under "Incompatibilities" in Section 10.

## Section 8 - Exposure Controls and Personal Protection

	The following Australian Standards will provide general advice regarding safety clothing and equipment: Respiratory equipment: <b>AS/NZS 1715</b> , Protective Gloves: <b>AS 2161</b> , Industrial Clothing: <b>AS2919</b> , Industrial Eye Protection: <b>AS1336</b> and <b>AS/NZS 1337</b> , Occupational Protective Footwear: <b>AS/NZS2210</b> .
<b>ASCC Exposure Limits</b>	<b>TWA (mg/m3)    STEL (mg/m3)</b> Exposure limits have not been established by ASCC for any of the significant ingredients in this product. No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.
<b>Ventilation:</b>	No special ventilation requirements are normally necessary for this product. However make sure that the work environment remains clean and that dusts are minimised.
<b>Eye Protection:</b>	Eye protection is not normally necessary when this product is being used. However, if in doubt, wear suitable protective glasses or goggles.
<b>Skin Protection:</b>	The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary. However, we suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely.
<b>Protective Material Types:</b>	There is no specific recommendation for any particular protective material type.
<b>Respirator:</b>	If there is a significant chance that dusts are likely to build up in the area where this product is being used, we recommend that you use a suitable Dust Mask.

## Section 9 - Physical and Chemical Properties:

<b>Physical Description &amp; colour:</b>	Milky coloured gel.
<b>Odour:</b>	Faintly fragrant.
<b>Freezing/Melting Point:</b>	No specific data. at normal temperatures.
<b>Volatiles:</b>	Water component.
<b>Vapour Pressure:</b>	2.37 kPa at 20°C (water vapour pressure).
<b>Specific Gravity:</b>	1-1.1
<b>Water Solubility:</b>	Soluble in water.
<b>pH:</b>	Not Applicable

## Section 10 - Stability and Reactivity

<b>Reactivity:</b>	This product is stable.
<b>Conditions to Avoid:</b>	Extreme heat, this product should be kept in a cool, dry place, ideally below 30°C. .
<b>Incompatibilities:</b>	Water, acids, strong bases, oxidising agents.
<b>Fire Decomposition:</b>	Only small quantities of decomposition products are expected from this products at temperatures normally achieved in a fire. This will only occur after heating to dryness. Carbon dioxide, and if combustion is incomplete, carbon monoxide and water. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment, and unconsciousness followed by coma and death.
<b>Polymerisation:</b>	This product will not undergo polymerisation reactions.

**Section 11 - Toxicological Information****Local Effects:****Target Organs:** There is no data to hand indicating any particular target organs.**Classification of Hazardous Ingredients****Ingredient Risk Phrases:** No ingredient mentioned in the HSIS Database is present in this product at hazardous concentrations.**Section 12 - Ecological Information**

Classified NOT dangerous to the environment.

**Section 13 - Disposal Considerations****Disposal:** Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.**Section 14 - Transport Information****ADG Code:** This product is not classified as a Dangerous Good. No special transport conditions are necessary unless required by other regulations.**Section 15 - Regulatory Information****AICS:** All of the significant ingredients in this formulation are compliant with NICNAS regulations.**Section 16 - Other Information****This SDS contains only safety-related information. For other data see product literature.****Acronyms:**

<b>ADG Code</b>	Australian Code for the Transport of Dangerous Goods by Road and Rail (7th edition)
<b>AICS</b>	Australian Inventory of Chemical Substances
<b>ASCC</b>	Office of the Australian Safety and Compensation Council
<b>CAS number</b>	Chemical Abstracts Service Registry Number
<b>Hazchem Code</b>	Emergency action code of numbers and letters that provide information to emergency services especially firefighters
<b>IARC</b>	International Agency for Research on Cancer
<b>NOS</b>	Not otherwise specified
<b>NTP</b>	National Toxicology Program (USA)
<b>R-Phrase</b>	Risk Phrase
<b>SUSDP</b>	Standard for the Uniform Scheduling of Drugs & Poisons
<b>UN Number</b>	United Nations Number

THIS SDS SUMMARISES OUR BEST KNOWLEDGE OF THE HEALTH AND SAFETY HAZARD INFORMATION OF THE PRODUCT AND HOW TO SAFELY HANDLE AND USE THE PRODUCT IN THE WORKPLACE. EACH USER MUST REVIEW THIS SDS IN THE CONTEXT OF HOW THE PRODUCT WILL BE HANDLED AND USED IN THE WORKPLACE.

IF CLARIFICATION OR FURTHER INFORMATION IS NEEDED TO ENSURE THAT AN APPROPRIATE RISK ASSESSMENT CAN BE MADE, THE USER SHOULD CONTACT THIS COMPANY SO WE CAN ATTEMPT TO OBTAIN ADDITIONAL INFORMATION FROM OUR SUPPLIERS

OUR RESPONSIBILITY FOR PRODUCTS SOLD IS SUBJECT TO OUR STANDARD TERMS AND CONDITIONS, A COPY OF WHICH IS SENT TO OUR CUSTOMERS AND IS ALSO AVAILABLE ON REQUEST.

Please read all labels carefully before using product.

*This SDS is prepared in accord with the ASCC document "National Code of Practice for the Preparation of Material Safety Data Sheets" 2nd Edition [NOHSC:2011(2003)]*
