

HydroSensor II

Easy, collapsible moisture detection tool. Map the migration of water in carpet and pad. It extends to 31 in. (79 cm) to save your knees and back – and collapses to 21 in. (53 cm) for convenient storage. A sensitive sensor system with nickel-plated tips sounds an alarm if the moisture content is above 17%. For use only on carpet and pad.

FEATURES

- Extends to 31 in. for use
- Collapses to 21 in. for storage
- Stainless steel construction
- Nickel-plated, retractable points
- Comfortable pistol-grip handle
